MODELING DNNS USING KERAS / TENSORFLOW

INSTRUCTOR: KEN WOOD

FEBRUARY 27, 2026

A LITTLE ABOUT KEN….

- 8 years experience as Data Science / Data Analytics Instructor
- Data Science Lead at Availity (healthcare technology)
- 10 years experience working in DS/ML/AI
- Previously worked in Power Engineering field

"Energy and persistence conquer all things." — Benjamin Franklin

YOU SHOULD BE FAMILIAR WITH…

- Basic linear algebra (matrices, vectors)
- Google Colab programming environment
- Python programming (pandas, numpy)
- Simple deep neural networks (DNNs)
  - Input layers
  - Hidden layers
  - Activation functions
  - Trainable parameters (Wx + b) weights, bias
